STOLEN GUN FOUND.

E. H. Barton, in picking up two Mexican youths, several days ago, found a gun that had been stolen from another man in the city some time before. The youngsters were seen looking into windows and doors along Naco Road. When the gun was found they declared they had found it. Upon investigation it was found that neither of the boys, whose ages were thirteen and fifteen, were in the country legally and Inspector Lockwood took them back to Naco and deported them.

WM. TRUAX ARRESTED.

William Truax, proprietor of the English Kitchen, was arrested yesterday afternoon on a warrant charging that he furnished a deadly weapon in the presence of more than two people on August 1. William J. Lewis, who is a dishwasher and who was in front of the English Kitchen, at the time of the incident, is the complaining witness. Judge Tottman held Truax in \$500 bond which was furnished at once. According to the restaurant man he was taking home his cook, who had been threatened by the members of the Cooks and Waiters Union, and other union men, and carried a gun in his right hand, unconcealed. When he got outside of his place of business Lewis grabbed Truax and the latter told him to get away or he would hit him over the head with the weapon. At that time Truax was arrested and held in \$100 bond. Lewis was also arrested. The same night the union men decided not to press the case, realizing that it was weak, and offered to withdraw their complaint if Truax would withdraw his. This was agreed to and it was dismissed. The charge, as it now stands, is the same case, brought up again by the same people.

Keeping Yourself Well

DRIVING OUT CATARRH

If people knew how the presence of catarrh is a constant menace, they would have none of it. It infects some part of the delicately adjusted body and makes it useless, thus throwing on the other organs more than their share of work. It affords a carefully prepared remedy for the germs of colds, grip, tuberculosis and pneumonia. It so disarranges Nature's delicate plans as to make possible asthma, hay fever and other respiratory disorders. It spreads until it becomes systemic, thus involving many organs and debilitating the entire system with serious results. Catarrh is easily neglected, and it rarely gets well of itself. It needs proper medicinal correction. For almost half a century many thousands have found help in Peruna, a valuable tonic with special efficacy in catarrhal conditions. The aim is to clean out waste matter, to dispel the catarrhal inflammation, and tone up the whole system. Its users willingly testify that it has done all this and even more for catarrhal sufferers. What it has done is the best proof of what it will do. You may rely on Peruna.

In tablet form it is pleasant to take and easy to administer. **Mananin Tablets** are the ideal laxative and liver tonic. They have no unpleasant effects and do not form a habit. 10c, 25c. The Peruna Co. Columbus, O.

FLORENCE TURNER IN "A WELSH SINGER" AT THE ORPHEUM TODAY

Florence Turner's wonderful success in her chosen profession is easily understood after seeing her remarkable work as the little Welsh girl in Allen Raine's great novel, "A Welsh Singer," which appears at the Orpheum this evening and Sunday, the most popular of this famous author's many literary triumphs.

Referred to by critics as the Sarah Bernhardt of the screen, Miss Turner is probably the most finished actress now appearing in serious drama and the charming story of the little singer of the mountains who charms the handsome shepherd boy gives her a splendid opportunity to display her exceptional talents. How the shepherd boy attracts the attention of a wealthy tourist by his genius as a sculptor and is separated from his childhood sweetheart, and how she in turn becomes a great prima donna and in a strange land receives his attentions without revealing her identity until she has led him back to the scenes of their first meeting among the beautiful hills of their childhood home, makes an intensely interesting drama in which the celebrated star appears to splendid advantage.
